The Best Value for Your Security

Staff Tracking - Three Easy to use Products

Cameras

How would you like to pick up your I-Phone or Android and see what is going on in your business 24/7. You can even look back to a recent past time if needed.

- Increase productivity.
- Make a statement that your workplace is more secure.
- See if staff are late or missing.
- Identify visitors.
- Look after hours at activity that may cost you your profits.
- Reduce inventory and office supply theft.

How? A new camera system with one of our DVR's which will be connected to your internet.

Our system can be purchased or leased and both come with maintenance and service checkups to make sure all cameras are clear, positioned correctly, and recording.

Prices start at \$299.00 installed and \$34.95 per month as a lease.

Intrusion Systems

Yesterdays

- Keypad
- Doors
- Motion Detectors

Today's

- Fire, carbon monoxide and storm alert
- Notification on your phone when the system is not set at your closing time
- Ability to set system from personal cell phone or computer
- Parallel with camera's and see if anyone is in the building
- Receive odd openings and know who it is that disarmed the system
- Control HVAC if you have a simple system and save your energy costs
- Control with Electric Locking Inventory or Sensitive areas and even have them on a separate partition alarm.

Vehicle tracking

Do you have company vehicles for sales or delivery? We now have software and easy to install vehicle tracking units that are very cost effective for less than a dollar per day.

- Know where your vehicles are
- See if a driver is speeding
- Save time by dispatching the closest vehicles
- See if staff are at work on personal errands.

TOTAL CUSTOMER CARE

What a nice feeling it is to have your system inspected and tested every year, have batteries replaced automatically and any repairs covered in the monthly fees.

What is covered under the Total Customer Care:

- All parts and labor for normal repair.
- Scheduled annual inspections.
- Scheduled main panel battery replacement every 3 years.
- Scheduled wireless battery replacement every 5 years.
- Software updates as needed.
- Cell radio repairs and updates.
- Carbon monoxide detector replacement every 5 years.
- Smoke detector replacement every 10 years.
- Daily test signals.
