PHONE AND CENTRAL STATION CHANGE

Our Central Station is now using our local **636-456-1866** phone number. If you need help or you are called, expect **636-458-1866** not the 1-800 number anymore.

Add water detection— flooding basements and broken pipes can cost thousands of dollars in damage.

Carbon monoxide detection-

Where - on each floor and in the basement

Why - gas and combustible furnaces and water heaters can block up and cause loss of life. New houses now require carbon monoxide detection.

Phone lines - If your alarm still uses a landline, please do not change unless you convert to a radio cell. Otherwise your alarm may quit sending in emergency signals.

Come see our new office!!!

We would love to have you visit and look at our latest camera systems, door access, fire and intrusion system. Please call *Terry Sandefur* for cookies and a tour at **636-458-1866**.

*****FALL OFFERS*****

******WATER DETECTION SYSTEMS****** \$350.00 off if you sign up by December 31, 2019. These systems put water detection in the basement, sump pump buckets, in bathrooms, kitchen and laundry room. When water is detected you are notified and if it is a plumbing issue the water is turned off.

******CARBON MONOXIDE SPECIAL****** Buy two or more detectors and receive a 15% discount on each detector bought and installed.

******RADIO CELL BACKUP SPECIAL****** \$49.95 installed for our basic unit and \$99.00 installed for our app unit. Your panel must be new enough. Monthly cell service required (\$14.00 additional).
